Cri Du Chat The First

Cri du chat syndrome, also known as chromosome 5p deletion syndrome, 5p– syndrome (pronounced "five P minus") or Lejeune's syndrome, is a rare genetic disorder due to chromosome deletion on chromosome 5. Its name is a French term ("cat-cry" or "call of the cat") referring to the characteristic cat-like cry of affected children. It was first described by Jérôme Lejeune in 1963.

While there are risk factors for congenital heart defects, over 90% of heart malformations have no known cause. For this reason researchers have classified most heart defects as multifactorial, meaning that there is no known explanation for the problem other than the possible interaction between hereditary and environmental factors.

Le Chat à pieds noirs (Felis nigripes), parfois Chat aux pattes noires, est une espèce de félins sauvages, d'allure trapue au pelage tacheté. Son nom lui vient de ses soles plantaires (le dessous du pied) recouvertes de poils noirs qui le protègent du sol brûlant du désert. Pesant en moyenne moins de deux kilogrammes, c'est l'un des plus petits félins au monde et le plus petit d'Afrique.
