Federal Income Taxation Third Edition

The United States of America has separate federal, state, and local governments with taxes imposed at each of these levels. Taxes are levied on income, payroll, property, sales, capital gains, dividends, imports, estates and gifts, as well as various fees. In 2010, taxes collected by federal, state, and municipal governments amounted to 24.8% of GDP. In the OECD, only Chile and Mexico are taxed ...

Origin. The origin of the current rate schedules is the Internal Revenue Code of 1986 (IRC), which is separately published as Title 26 of the United States Code. With that law, the U.S. Congress created four types of rate tables, all of which are based on a taxpayer's filing status (e.g., "married individuals filing joint returns," "heads of households").

For years, Americans have been told that the rich are paying a highly disproportionate share of the nation's taxes. Claims to that effect often focus on just one tax, the federal personal income tax, which is indeed progressive overall. But when the nation's tax system is viewed in its entirety, it becomes clear that the reality is very different.
