**Mechanosensitive Ion Channels, Part A, Volume 58 - Elsevier**

Mechanosensitive ion channels (MSCs) are found in all types of cells ranging from Escherichia coli to morning glories to humans. They seem to fall into two families: those in specialized receptors such as the hair cells of the cochlea and those in cells not clearly differentiated for sensory duty.

**Mechanosensitive Ion Channels, Part A by Sidney A. Simon ...**

Mechanosensitive ion channels. In cells and tissues of eukaryotes MS ion channels were first documented in patch clamp experiments by exposing membrane patches of red blood cells to hypotonic shock 18 or by applying negative pressure to membrane patches of frog muscle 1 and chick skeletal muscle cells.
