Vocabulary knowledge is important to reading because the oral and written use of words promotes comprehension and communication. The three primary types of vocabulary are oral vocabulary, which refers to words that are recognized and used in speaking; aural vocabulary, which refers to the collection of words a student understands when listening to others speak; and print vocabulary, which ...

Code-mixing is the mixing of two or more languages or language varieties in speech.. Some scholars use the terms "code-mixing" and "code-switching" interchangeably, especially in studies of syntax, morphology, and other formal aspects of language. Others assume more specific definitions of code-mixing, but these specific definitions may be different in different subfields of linguistics ...

In the study of language, description or descriptive linguistics is the work of objectively analyzing and describing how language is actually used (or how it was used in the past) by a group of people in a speech community.. All academic research in linguistics is descriptive; like all other scientific disciplines, its aim is to describe the reality as it is, without the bias of preconceived ...
