In Australia, an industry superannuation fund is a superannuation fund originally established to provide for the retirement of workers from a specific industry. Industry super funds are not-for-profit super funds. They are mutual funds, are membership-based and do not have shareholders. Many industry super funds are trade union-based.

Manish Gunwani quits ICICI Prudential Mutual Fund

Mutual funds are created when several people who wish to earn wealth (investors) combine their resources to create a huge investable amount (corpus). This large corpus is then invested into various companies across industries, operating in different sectors of the economy - depending on the type of fund chosen.

Origins. The first theoretical model for an index fund was suggested in 1960 by Edward Renshaw and Paul Feldstein, both students at the University of Chicago. While their idea for an "Unmanaged Investment Company" garnered little support, it did start off a sequence of events in the 1960s that led to the creation of the first index fund in the next decade.
