

The Rifle Musket In Civil War Combat Reality And Myth

The Rifle Musket In Civil

A rifled musket is a type of firearm made in the mid-19th century. The term referred only to muskets that had been produced as a smoothbore weapon and later had their barrels rifled. The term 'rifle musket' refers to musket length firearms that were manufactured with rifled barrels. The two terms are frequently confused.

During the American Civil War, an assortment of small arms found their way onto the battlefield. Though the muzzle-loading percussion cap rifle was the most numerous weapon, being standard-issue forth the Union and Confederate armies, many other firearms, ranging from the single shot breech-loading Sharps and Burnside rifles to the Spencer and the Henry rifles, two of the world's first ...

Rifles in the American Civil War - Wikipedia

Between the rifle and carbine versions, about 48,000 of these weapons were in use by 1865. The carbine was a shorter version of the Spencer 7-shot repeating rifle and was introduced primarily for cavalry use in 1864.

The Spencer Repeating rifle - George Henry Thomas

Henry Rifles. Brass Frame, Cal 44/40 or .45 Long Colt. Manufactured by Uberti in Italy. Faithful to the original, this "Henry" with its barrel and magazine drawn from one-piece steel, required a good deal of skill to reproduce.

Musket, muzzle-loading shoulder firearm, evolved in 16th-century Spain as a larger version of the arquebus. It was replaced in the mid-19th century by the breechloading rifle. Muskets were matchlocks until flintlocks were developed in the 17th century, and in the early 19th century flintlocks were replaced by percussion locks.

Musket | weapon | Britannica.com

Kentucky Percussion or Flintlock Rifle. The Kentucky rifle evolved from the German hunting weapons and was a major rival of the Brown Bess. Due to its light weight, it became one of the most popular American rifles.
